

A Career That's Good for You — and the Environment

Water/Wastewater Technology

You've likely heard about "green jobs" but what about the "blue economy"? It's rising in importance as communities look to protect and enhance the quality of their water supply. And thanks to a grant from the National Science Foundation, Waubonsee can train you to enter this field in just one year – with a new hybrid (*online/in-person*) program that awards college credit and includes both hands-on work experience/internships and preparation for professional certification.

Key Courses in the Certificate Program:

- Water Operations I & II
- Wastewater Operations I & II
- Math for Water Technology I & II

- New 1-Year Certificate Program Starts Fall 2025
- Developed with input from members of the Business Industry & Leadership Team (*Fox Metro, Illinois Section American Water Works Association, Illinois Water Environment Association, and many others*)
- Prepares you for Illinois Environmental Protection Agency's Class D Drinking Water and Class 4 Wastewater Operator certifications
- Median Pay is \$54,890/year
